

# DANIIL KAMINSKYI

WEB/APPLICATION DEVELOPER

## SUMMARY

As a student of programming, I have a strong foundation in C++, PHP, JavaScript, SQL and SCSS/SCC/HTML. My studies at the institute have enabled me to develop my strategic thinking skills as well as hone my attention to detail. In addition, I am an enthusiastic creator of videos and music, with Blender being one of my favorite tools for expressing myself artistically. Despite not having any professional experience in this field yet, I am confident that these abilities will be valuable assets when it comes to working on programming projects or tasks.

## EDUCATION

September 2021 - Present Collegium Da Vinci

Programing
